

HOW TO USE QUIZLET

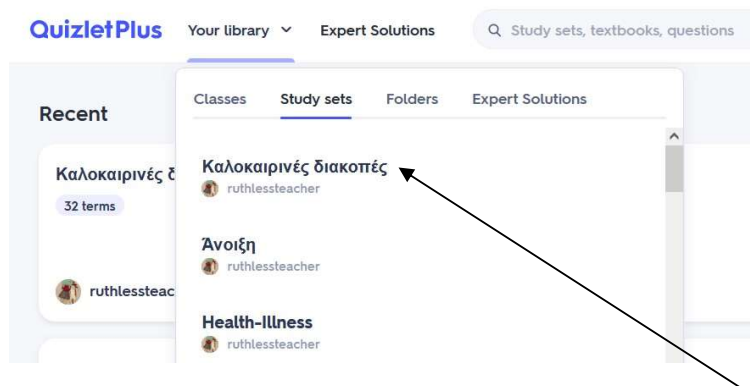

1. After you have signed up as an independent user, you will see this:

2. Click on "Your library" and you can see these:

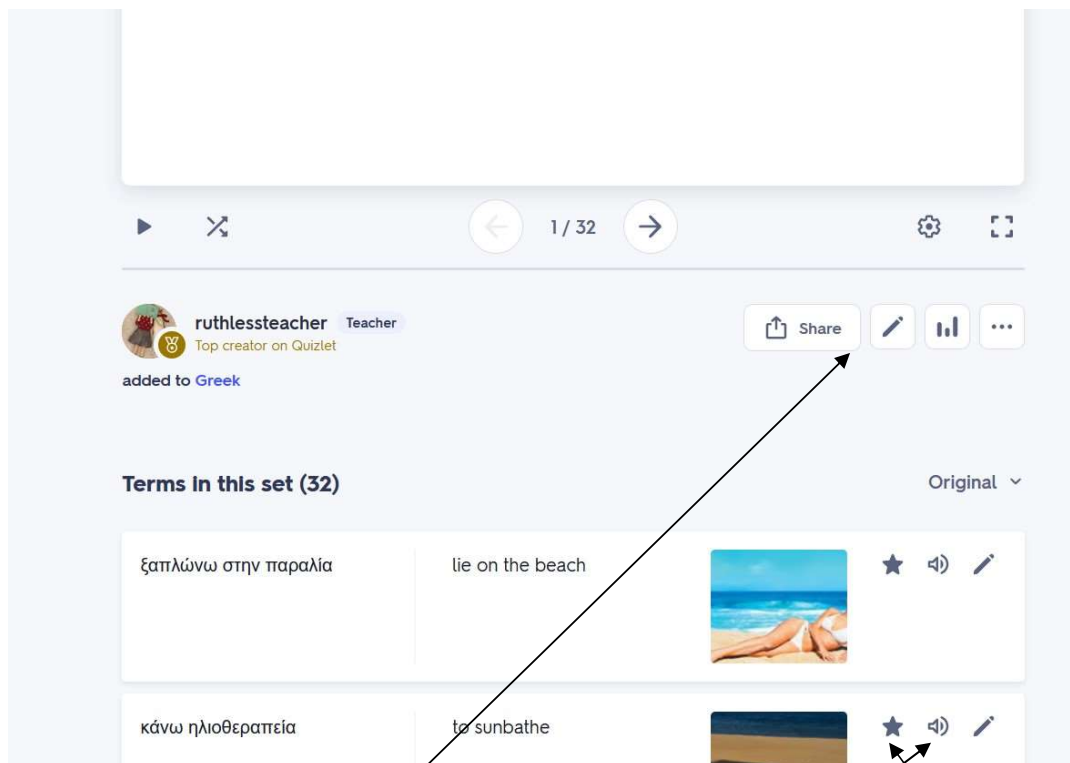

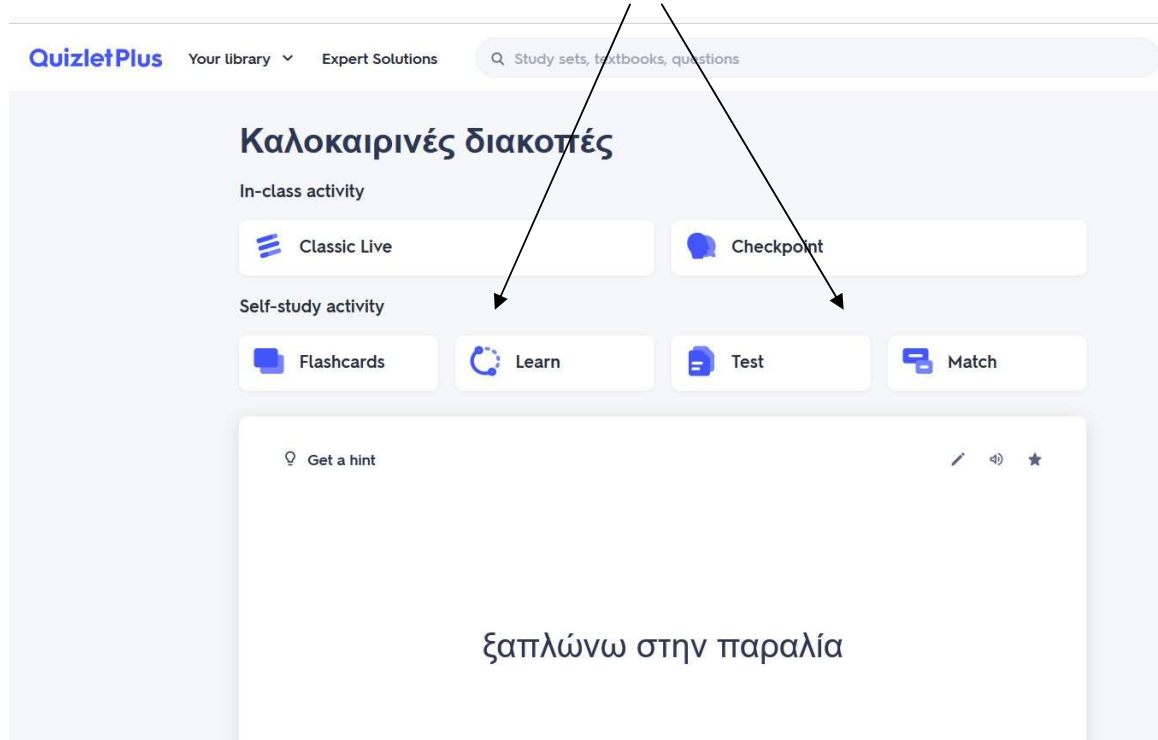

3. Here you can choose to browse through your classes or your study sets or even your folders

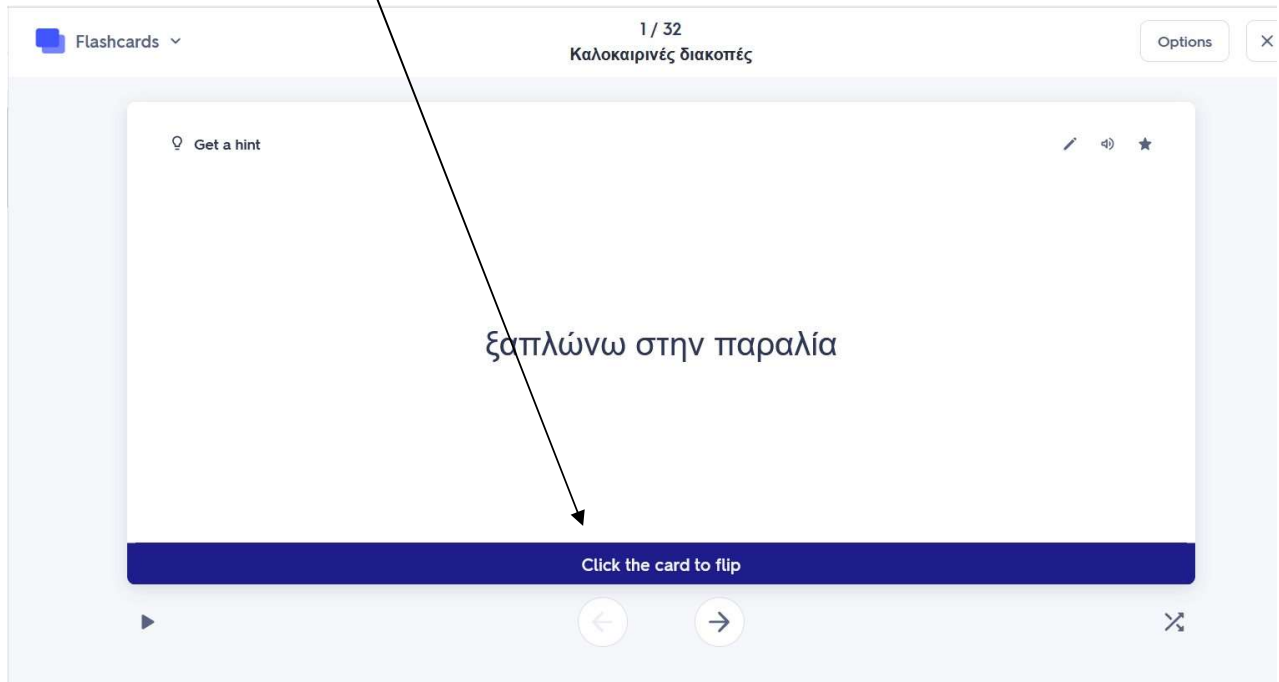

4. If you choose a set e.g. "Καλοκαιρινές διακοπές" it will open like this:

Here we can choose different applications/modes to study a set

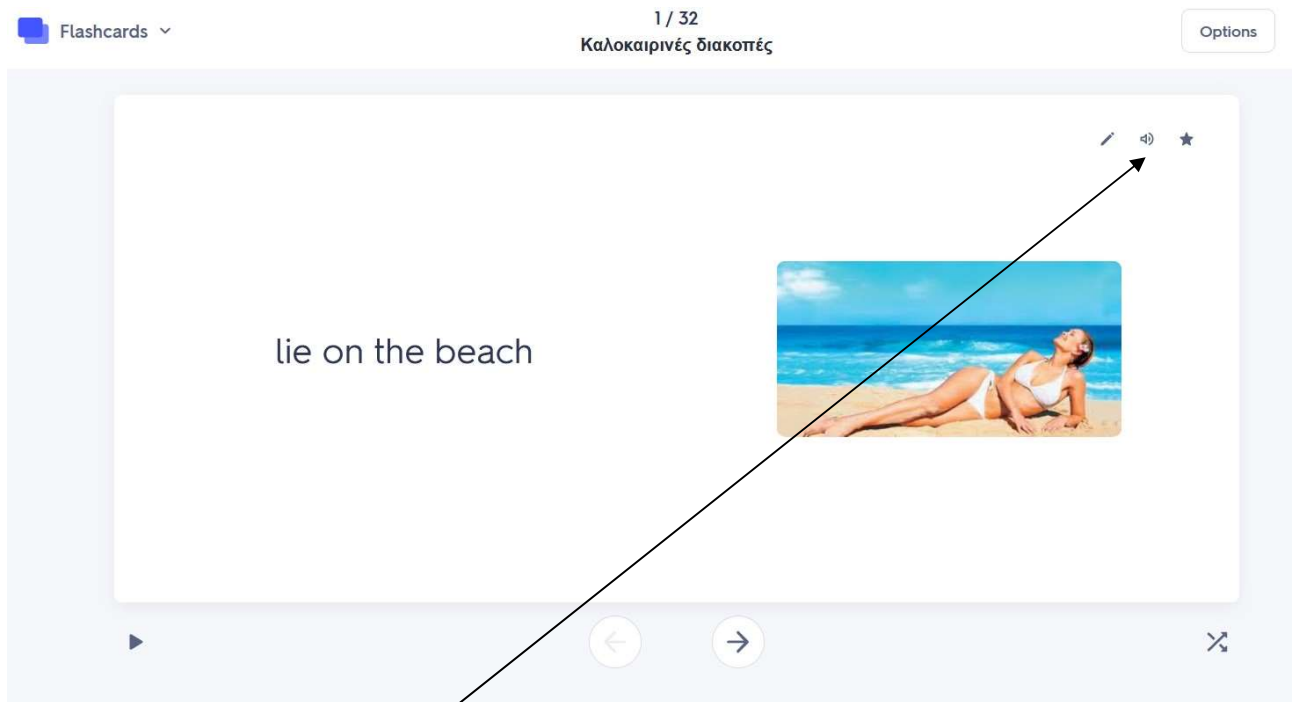

And here we can copy or share this set, listen to the pronunciation or highlight some words as more important with the use of the star

5. When we use the mode **“Flashcards”** we can see one side of the card in Greek and by clicking on it to flip ...

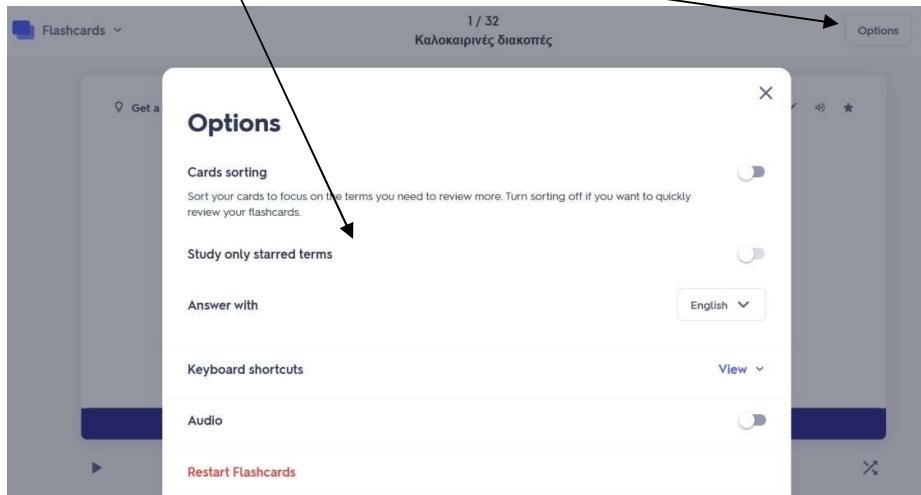

...we can see the word/phrase in English

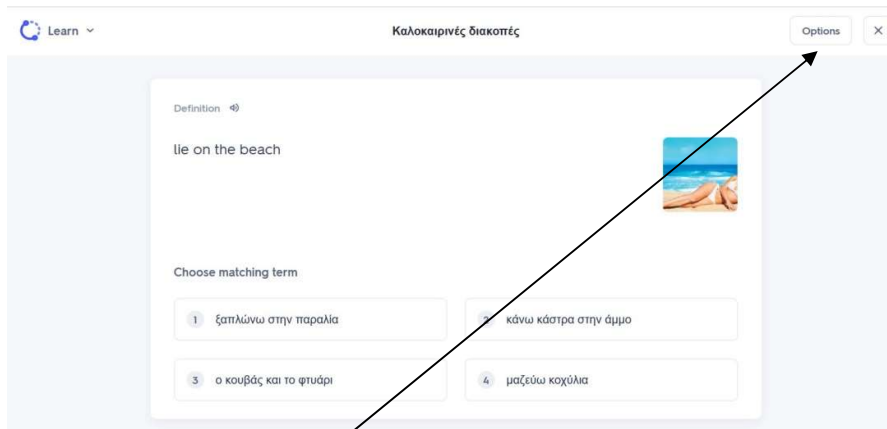

We can listen to the pronunciation or use the star to highlight this word. The **“flashcards”** mode is mostly for studying and not for checking our memory.

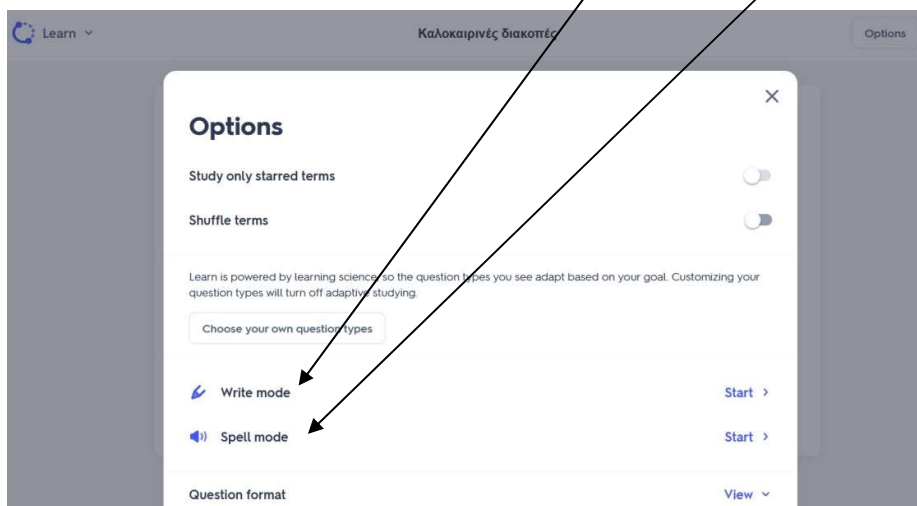

However, we can choose how we want to study in “flashcards” by using the button “options” which provides us with a variety of ways one of which is to study only the words with a star

6. When using the mode “Learn” we have multiple opportunities to check our knowledge and memory

Inside “Learn” you can also find two more hidden modes/applications. By clicking on the button “Options” we get access to “Write” or “Spell”

7. The mode **“Write”** (inside **“Learn”**) gives us one word in English for example and asks us to write it in the other language, Greek for example, while keeping score

sunglasses

9. The mode **“Test”** gives us the opportunity to check our memory after every set

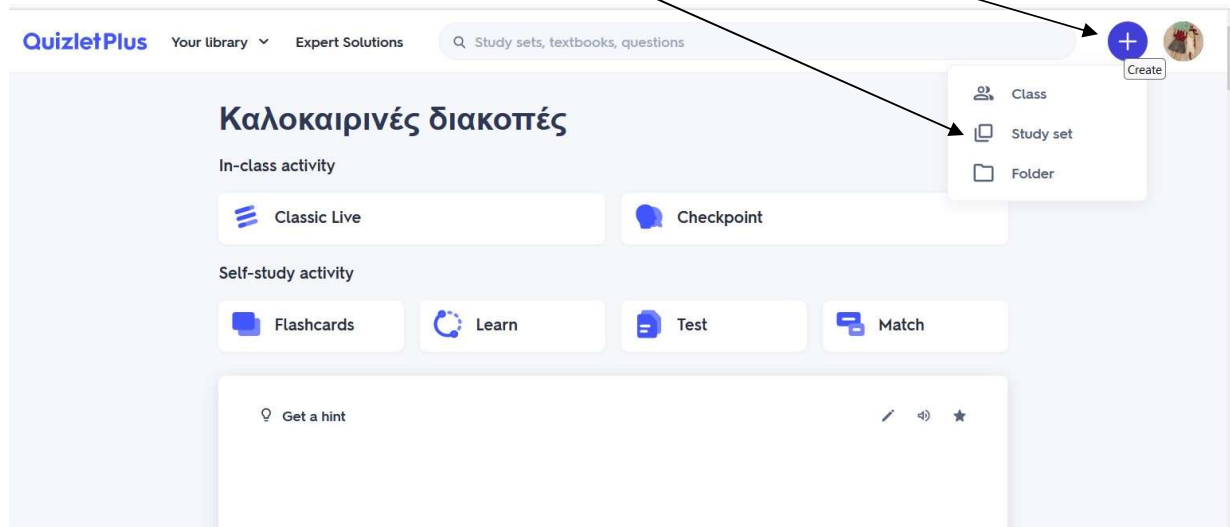

Here we also have choices regarding the form of the Test by using the button **“Options”**. Additionally, we can print the Test if we want to.

10. The last mode **“Match”** is based more on games and pictures giving us the chance to revise the material in a more entertaining way

10. Last but not least, everybody can make their own study sets from the main page of Quizlet by clicking on the button "Create"

Here we can create new classes, study sets or folders

Good Luck with Quizlet!

In my opinion, this is an extremely useful tool for students of foreign languages and I am sure you will love it! Feel free to contact me for further questions on the use of this online tool.
