<https://www.youtube.com/watch?v=NAuIsgvrpC4>

On a mission to “inform, engage and inspire audiences about the importance of protecting global biodiversity,” the **Wildlife Conservation Film Festival (WCFF)** produces interactive events with an environmental focus with its annual festival. “Dream” by Zombie Studio (created in 2016) is a perfect example. In this animation, animals sing an emotional rendition of “I Dreamed a Dream” from the film *Les Misérables*.

Watch the video and write down the ways the animals suffer due to human activities:

Now listen to the song and complete the lyrics below:

I dreamed a dream in times by
When hope was high and worth living
I dreamed that would never die
I dreamed that God would be

Then I was and unafraid
And dreams were made and used and

But the come at night
With their soft as thunder
As they tear your apart
As they turn your dream to

And still I dreamed he'll to me
That we will live the together
But there are that cannot be
And there are we cannot weather

I had a dream my life be
So different from this I'm living
So different now from what it
Now life has the dream
I dreamed.

Watch the video and write down the ways the animals suffer due to human activities:

Rhinos are shot so that their horns can be cut off, blue whales are killed with harpoons, birds suffer from the polluted seas especially after fires in oil stations and baby seals are killed for their fur

Now listen to the song and complete the lyrics below:

I dreamed a dream in times gone by
When hope was high and life worth living
I dreamed that love would never die
I dreamed that God would be forgiving

Then I was young and unafraid
And dreams were made and used and wasted

But the tigers come at night
With their voices soft as thunder
As they tear your hope apart
As they turn your dream to shame

And still I dreamed he'll come to me
That we will live the years together
But there are dreams that cannot be
And there are storms we cannot weather

I had a dream my life would be
So different from this hell I'm living
So different now from what it seemed
Now life has killed the dream
I dreamed

The video

“**Dream**” is a CGI 3D Animated Short created for the Wildlife Conservation Film Festival. Four animals facing extinction tell their stories through the words which capture the plight of four distinct animals suffering at the hands of humans...The emotional portrayal begins with animals in their natural habitats singing when their life was good. As the song shifts in tone, the animals continue to sing as their lives are threatened by ma-made threats to their lives and environment. DDB worked with the animation production company Zombie Studio to bring this song to life. **(information from the video details on Youtube)**
